

Using path sampling for atomistic insight into the kinetics and dynamics of medically relevant biomolecules

David W.H. Swenson
University of Amsterdam

Building the bridge between theories and software:
SME as a boost for technology transfer in industrial simulative pipelines
Istituto Italiano di Tecnologia, Genoa, Italy; 23 May 2018

E-CAM Workshops

Extended Software Development Workshop: Intelligent high throughput computing for scientific applications

July 16, 2018 to July 20, 2018

Location : Polytechnic University of Turin, Italy

Details

Participants

Apply

Organisers

- David Swenson (*Universiteit van Amsterdam, The Netherlands*)
- Alan O'Cais (*Jülich Supercomputing Centre, Germany*)

Supports

 CECAM

 E-CAM

Learn to use:

- `dask`
- `PyCOMPSs`
- `MDStudio`

in your own programs!

No registration fee. Lodging and lunches included; travel reimbursed (up to 300€).
