

Challenges in Campaign-Scale Software Design: Lessons from OpenPathSampling and Open Free Energy

David W.H. Swenson

Infrastructure Lead for Open Free Energy

Open Molecular Software Foundation

Open Molecular
Software Foundation

OpenPathSampling

Things I maybe should have talked about (but won't)

- **Sustainability models** (and OMSF)
- **Serialization and reproducibility** (you'll get some of that)
- **Interfacing MD engines with OpenPathSampling**

Happy to answer questions about any of these, either after talk or over coffee!
